What is AKMGMA?

The Alaska Medical Group Management Association (AKMGMA) was formed in 1986 by a group of medical practice administrators.

Its purpose is simple - to provide educational, networking and leadership building opportunities for those serving in medical practice management.

The Association also provides a level of membership for professionals who provide products or services to the medical community.

Who Should Be a Member?

Practice administrators, office managers, assistant managers or any corporation that provides products or services to healthcare organizations will benefit from membership in AKMGMA.

How Do I Join?

Simple. Complete the application form and mail it in with your membership payment. Membership forms may also be printed from our website at www.akmgma.org Upon receipt of your application and payment, and approval of membership, you will be added to our mailing list.

How Can Membership Help My Practice?

AKMGMA provides monthly education meetings for our members and their guests. These meetings feature professional speakers who provide information on a wide variety of topics, such as:

- Personnel Management
- Financial Management
- Reimbursement Management
- Risk Management
- Compliance
- Planning and Development
- Communications Technologies
- Patient Satisfaction
- HIPAA Compliance

Monthly speakers are selected based upon the needs of the membership. Whether it is providing insights on how to make your practice more effective, or ways to improve the practice bottom line, image or patient relations, you can expect to learn something new at each meeting.

In addition, monthly meetings provide a forum for members to discuss common problems and challenges and learn from one another. Working together on a one-on-one basis or collectively, members can develop strategies for managing future changes and find effective solutions to everyday problems.

How Can Membership Help Me?

As a medical practice professional you must steadily expand and refine your management skills. AKMGMA provides a pathway for your career growth through professional and personal development. Members benefit from the camaraderie and interaction among AKMGMA members and access to the website, www.akmgma.org, where you may find up-to-date information regarding what is going on in your community, the state, and the nation regarding healthcare. Add a valuable tool to your career by joining this organization!

Annual State Conference

AKMGMA hosts an annual two-day conference for all its statewide members to attend and is conveniently located. It is a cost-effective educational conference designed to create excellence in healthcare practices, processes, and outcomes. National speakers provide indepth educational seminars on a variety of topics. National, regional, and local companies host exhibits and social events to promote member networking.

Goals

Development and promotion of educational programs for members and support personnel by conducting periodic educational meetings, providing diversified speakers in all areas which influence and affect medical group management.

Provide a network of managers who are available to share ideas and information to help solve common problems.

Increase membership in a manner that will strengthen the organization in the further achievement of its organizational objectives.

Cooperate with other organizations having similar goals and objectives.
